RESPONSE "D" TO NON-FINAL OFFICE ACTION Dated 05 Sept. 2002	
Dear Sir:	
In response the non final office action (after filing a RCE) dated 05 Sept. 2002, the	
applicants respond as follows:	
In the Claims	
10. (Thrice amended) A solid-electrolyte secondary battery comprising:	
(a) a positive electrode;	
(b) a negative electrode;	
(c) a solid electrolyte comprising a matrix polymer comprising a fluorocarbon polymer	
having a weight-average molecular weight of g	reater than 600,000;
(d) wherein the matrix polymer further of	comprises a second fluorocarbon polymer having
a weight-average molecular weight of greater the	nan 300,000 and less than 550,000;
(e) wherein the matrix polymer compris	es 30 percent or more by weight of the
fluorocarbon polymer having a weight-average molecular weight of greater than 600,000;	
(f) wherein the positive electrode has a	face which is directed towards the negative
electrode and the solid-electrolyte layer is form	ed on the face of the positive electrode and
impregnates into the solution in which the solid	electrolyte is dissolved; and
(g) wherein the negative electrode has a face directed toward the positive electrode and	
the solid-electrolyte layer is formed on the face	and impregnates into the face a solution in which
the solid electrolyte is dissolved.
